Wembley in our sights!

Logistique complete The FA UMBRO Fives regional finals and look forward to the national final at Wembley.

Logistique have now completed all nine of the regional finals in their role as Tournament Directors of the inaugural FA Cup for five-a-side football. The last six weeks have seen Jon and Stephen manage events in Manchester, Peterborough, Derby, Birmingham, Bradford, North Shields, London, Basingstoke and finally Plymouth.

Their work is now fully focused on the finals days at the new Wembley stadium which will see 48 men's and women's teams from across the country competing for the right to be champions in their respective category.

Alongside delivering the regional finals Jon has so far undertaken 4 site visits to Wembley to plan the day in partnership with Nottingham based company The Media Group who are acting as the tournament logistics managers. Jon said "The regional finals have produced some great football and some gifted teams have qualified for Wembley".

"The 15th July will be a very special day for all of the players and Logistique's' role will once again be critical in delivering a quality product for our client's The FA and tournament sponsors UMBRO".

In total over 2,000 teams have entered making the tournament the largest in England.

exciting times lie ahead

Logistique are pleased to announce the appointment of their first Principal Consultant.

Logistique are pleased to announce the recruitment of Philip Heap as their new Principal Consultant. Philip has a wide-ranging expertise within the sports development sector, including over 8 years experience working in and with national governing bodies of sport, local authorities and the private sector.

Philip joins Logistique after spending the last 5 years at Manchester FA, three of those years as Football Development Officer and the last two as County Development Manager. Philip brings a breadth of experience to Logistique principally in sports development, event management and funding.

Philip is well placed to lead on the company's many projects with voluntary sports clubs, events and funding combining his knowledgeable insight into the operational management of sport with Logistique's recognised reputation for delivery.

Jon and Stephen said "we are delighted to bring somebody of Phil's experience and capability on board in what can only be exciting but challenging times ahead for the company. The company has grown steadily over the last 19 months and having our first member of staff will allow us to develop both our client portfolio and capacity".

Logistique 2 years on...

Logistique are pleased to celebrate its second birthday

Earlier this week Logistique were pleased to celebrate its second anniversary. Since its inception Logistique has made steady progress and now has a number of clients from all different sectors of not only the sporting world but also from regeneration, arts and culture, health and the private sector.

The last twelve months have seen Logistique make the most significant progress with the biggest project logistically so far coming from the organisation of the inaugural FA UMBRO Fives competition with the finals being held at Wembley stadium in July.

One of the most pleasing successes of the year has been the recruitment of our first member of staff with Phil Heap joining as Principal Consultant. Phil joins Logistique after 5 years at Manchester FA and brings with him over 8 years experience of working within national governing bodies of sport, local authorities and the private sector.

Over the next twelve months will see the continuation of major projects such as the Heywood Sports, Culture and Leisure Village, Salford Sports Village Phase 2 and the FA Football Fives 2008.

The last two years have seen Logistique undertake a comprehensive number of diverse projects including capital, revenue or advice related schemes. Further information on all projects undertaken to date can be obtained in the portfolio section of the website.

Finally, we would like to thank our clients for their continued support and we look forward to strengthening these relationships and building new ones with new clients in the forthcoming years.

Logistique - we have moved

Logistique move into new multi million pound offices in salford

Logistique are pleased to announce that they have recently moved into new offices.

The Company has moved into the new state-of-the-art £10 million Innovation Forum building spearheaded by Salford University, Salford City Council and the Northwest Development Agency.

The building forms Phase One of the Salford Innovation Park initiative. The facility will eventually house over 50 knowledge-based businesses and will be the focus for community initiatives, education and training. This will form the centre of innovative growth in Salford for emerging and established small businesses for the benefit of job and wealth creation. In addition, space will be provided for education and community groups and initiatives to take place from creating wealth and opportunities for local residents.

The building will act as a 'hub' or 'catalyst' bringing people together to share and vitalise their knowledge, skills and capability.

Managing Director Stephen Brown said: "We have a real affinity with Salford and the Innovation Forum will provide us with an ideal start up office where sustainable growth is encouraged within a business support environment". "We hope our new home will act as a catalyst for Logistique's organic development over the next few years".
